

## Induction warming plate IW3-SW

- ▶ Table-top warming plate
  - ✓ Ideally suited for warm buffets
- ▶ Keeping warm with induction
  - ✓ 300 Watt
- ▶ Pot detection
  - ✓ Pot diameter max.: 200 - 380 mm

- ▶ Easy operation
  - ✓ Temperature control in 5°C steps

### Description

The design of this hot plate makes every buffet look more appealing. The practical solution of connecting and switching 4 appliances with the optionally available cable in one circuit also ensures a uniform, high-quality look when serving food.

- ▶ Combinable
  - ✓ 4 appliances can be switched in sequence in 1 power circuit

### Features

|                                   |                                                             |
|-----------------------------------|-------------------------------------------------------------|
| • Colour:                         | Black                                                       |
| • Control unit:                   | Electronic<br>Touch                                         |
| • Control lamp:                   | -                                                           |
| • Size cerane surface:            | W 390 x D 390 mm                                            |
| • Overheating protection:         | Yes                                                         |
| • Timer:                          | No                                                          |
| • Digital display:                | Yes                                                         |
| • ON/OFF switch:                  | Yes                                                         |
| • Can be installed:               | No                                                          |
| • Pot recognition:                | Yes                                                         |
| • Pot diameter max:               | 200 - 380 mm                                                |
| • Output max.:                    | 300 W                                                       |
| • Lock button (child protection): | No                                                          |
| • Combinability:                  | 4 appliances can be switched in sequence in 1 power circuit |
| • Number of warming stations:     | 1                                                           |
| • Type of warming station(s):     | Induction                                                   |
