

Food warmer I3WL1200

Description

For GN containers at the buffet or for plates at the serving area – the food warmer keeps food at the perfect temperature. That's because the heat is transferred to the food by 3 infrared heating lamps from above and the stainless steel warming plate from below.

Features

- | | |
|---|-----------------------|
| • Heating zones can be controlled separately: | Yes |
| • Surface material warming plate: | Stainless steel |
| • Breite warming plate: | 1030 mm |
| • Depth warming plate: | 535 mm |
