

Thermometer EDD 2500

Description

The thermometer with external digital display and precise core temperature probe will quickly become an indispensable helper in the kitchen. Thanks to the flexible positioning - whether by magnet on the oven or free-standing next to the pan - you can always keep an eye on the core temperature of the food. A signal tone informs you when the desired temperature has been reached, even at peak times.

Features

• Timer:	Yes
• Display:	Target temperature Actual temperature Timer
• Operated via:	Batteries (1 x AAA 1.5 V)
• Length cable:	1.2 m
• Stand/suspension device:	1 magnet Adjustable foot, fold-out
• Control unit:	Electronic
• Material temperature sensor:	Stainless steel
• Puncture depth:	100 mm
• Diameter temperature sensor:	4 mm
• Design:	Digital
• Size of display field:	W 46 x H 20 mm
• With temperature sensor:	Yes
• Designed for:	Core temperature measurements Temperature monitoring during transport and storage

- Comfortable use:
 - ✓ Signal tone when the core temperature is reached
 - ✓ Timer with acoustic signal
 - ✓ With magnetic suspension device and fold-out stand

- Temperature range: 0 °C to 250 °C (32 °F to 482 °F)
- With external digital display

- Core temperature sensor:
 - ✓ Inset depth: 100 mm
 - ✓ Material: Stainless steel
 - ✓ Diameter: 4 mm
